

December 12, 1988

TO: Wayne Hedberg, Permit Lead  
FROM: Scott Johnson, Reclamation Engineer   
RE: Bonding Requirements for the Fivemile Pass Mine, Interstate  
Brick Company, M/045/006, Tooele County, Utah

Frank Filas prepared a bond estimate on May 6, 1988 for this mine. He estimated a reclamation cost of \$58,700 in 1993 dollars.

On September 6, 1988, Lance Jackson submitted a similar estimate. This estimate differs from Franks in that it does not include placing 5000 cubic yards of stockpiled clay back into the pit. Lance recalculated the reclamation cost to be \$52,500 in 1993 dollars.

I recommend we accept the \$52,500 figure as agreed to by Lance Jackson.
